WEB3 CARNIVAL

A FESTIVAL OF WEB3 EVENTS

Founders, builders, developers, investors and creators, together for a week of themed Cons, Demo Night, awards and a side event every night.

NOT A CONFERENCE. A CARNIVAL.

Most Web3 events are one stage and one lanyard. Web3 Carnival runs like a festival: a flagship week of themed Cons, with side events every day, then stops in cities across Asia and the Middle East.

Organised by Threeway Studio. Started as a week at Palm Meadows, Bengaluru, in December 2023.
